*Nowadays the island of Ischia has total of 370 hotels and little guest houses. That is why it is important to pay attention on some specific details that sometimes on the pictures or hotel's descriptions are not mentioned at all. In this little guidebook we will tell you about specifics of hotel's system in Ischia, that will help you to choose the right hotel for every single tourist based on his taste. So, at this point we are going to start from the most common questions of every tourist: "why" and "where" to book the hotel for making vacation unforgettable. Please note, in our guidebook we considered the main groups of hotels in Ischia according to our classification.*

## HOTELS, BEACHES AND SEA...

It is always important to know the difference between the concept of distance to the sea and the distance to the beach. On the island there are many hotels with a minimal distance to the sea but at the same time located far from the beach. It's due to the fact that beach line does not completely encircle the whole island but only some parts of it. Moreover, it is important to remember, that even though the hotel located with minimal distance from the sea, it's not the fact there is a direct descent to it.

Please note, here some of the

→ hotels which are located on so-called “fake” first beach line:

**HOTEL LE QUERCE 4\*** - is located about 120 meters above the sea level, descent to the sea by using the stairs (about 80 stairs)

**HOTEL CONTINENTAL MARE 4\*** - is located about 120 meters above the sea level, descent to the sea by using the stairs (about 110 stairs)

**HOTEL MYAGE 4\*** – is located about 120 meters above the sea level, but without direct descent to the sea

**PUNTA CHIARITO RESORT 4\*** - 70 meters above the sea level, descent to the sea by using stairs, about 200 stairs + 150 meters (natural thermal Bay of Sorgetto)

**NETTUNO 4\*** - 20 meters across the street, but without direct descent to the sea

**SANTA LUCIA 3\*** - 20 meters across the street, but without direct descent to the sea

**\*\*\* HOTELS ON FIRST BEACH LINE \*\*\***

Ischia boasts to have a big amount of large and beautiful sandy beaches located in different communes-cities. That is why the island has lots of hotels located on first beach line. BUT! Pay attention and always remember that even though hotel is located on first beach line, it doesn't mean it has its own beach!

→ **Hotels on first beach line, but without own beach** (beach and beach equipment for extra charge):

**PARCO AURORA 4\***, Ischia Porto

**HOTEL TERME ALEXANDER 4\***, Ischia Porto

**SOLEMAR TERME 4\***, Ischia Porto

Also, you have to remember, that Ischia – this is a green island, so it could happen, that apart from the sea view, the tourists can enjoy the view over the beautiful exotic trees.
- In the town of Forio, sunset goes down exactly 1 hour later, so the day spending on the beach is longer.
- Shopping and entertainment in the town of Ischia Porto
- The best beaches in the town of Forio
- The cheapest hotels are mostly located in Forio

## VIII. TRANSFER SERVICES AND HOW TO GET TO ISCHIA

## **Types of offered transportations on the island of Ischia:**

- Group transfer by bus or by ferryboat escorted by the assistant;
- Group transfer by bus or by ferryboat escorted by the assistant;

Characteristics of each single transportation here as follow.

### **Group transfer by bus or by ferryboat escorted by the assistant**

The assistant – the representative of Sud Italia Hotels meets the tourists at the airport with the sign of Sud Italia Hotels. After, the group take a ferryboat to get to the island. Most of the cases it is a direct transportation, so it means the bus together with tourists and luggage get transferred by ferryboat. While they get to the island, the small shuttle buses are already waiting for tourists to be transferred to the hotels.

### **Simple individual combined transfer by ferryboat + by car**

The driver meets the tourists with the sign where displays their surnames at the point A. After they get transferred to the port of Naples by a vehicle (a car, a minivan), where the driver buys the tickets for the first scheduled ferryboat. If tourists have suggestions on choosing ferryboat or speedboat, they have to specify it in advance! There is an extra charge of 10 Euros/pax one way for speedboat (Aliscafo). Our assistant or a driver meets the tourists with the sign where displays their surnames upon arrival into the port of Ischia. Transfer on return goes on the same way

The driver escorts the tourists to a speedboat, and the personal assistant meets the tourists with the name sign upon arrival into the port of Ischia, escorts them to the hotel and helps them to do check-in. The transfer on return goes on the same way with the only difference, that at the hotel and port of Naples the driver meets the tourists with their name sign.
